EXPERIENCE

Inchcape Digital

Front End Developer

May 2023 – PRESENT

- Responsible for developing, maintaining, and bug-fixing web applications using the React framework.
- Ensured the creation of user-friendly, responsive, and efficient interfaces that enhanced user experience.
- Successfully implemented new features on existing projects, contributing to the improvement and expansion of the application's functionality.
- Developed new tests for the newly implemented features using Cypress, ensuring the reliability and stability of the application through rigorous automated testing.
- Aligned web design with project specifications, ensuring consistency with brand guidelines and high-quality graphic standards.

Halcyon Digital Media Design

Mid Software Developer

Dec 2022 – Mar 2023

Jr. Front End Web Developer

May 2019 – Dec 2022

Frontend Web Developer Intern

Jan 2019 – Mar 2019

- Developed various custom websites using HTML, CSS, and JavaScript, leveraging the Laravel and VueJS frameworks to build dynamic and interactive web applications.
- Handled multiple projects simultaneously for different clients, effectively managing timelines, budgets, and client expectations.
- Implemented responsive design principles to ensure a seamless user experience across a wide range of devices, including desktops, tablets, and mobile phones.
- Ensured that websites were cross-browser compatible, conducting thorough testing and adjustments to maintain consistent functionality and appearance in all major browsers.
- Optimized web pages for maximum speed and scalability, focusing on efficient coding practices, image optimization, and minimizing load times.
